

I have been a K-LOVE listener in my area for as long as they've been broadcasting and would be completely lost if they went off the air. I know of so many more people here who are faithful listeners because we all need this station with its positive encouraging message in music to keep our spirits lifted and our hearts focused on God each day. My heartfelt request is that you please do not do anything to cause diminished reception or loss of the broadcast of K-LOVE. Thank you for accepting and considering my request.
